

A next-generation industrial automation company

HuEvo combines automation, artificial intelligence, and machine learning to create robotic solutions capable of continuous learning, adaptation, and optimisation.

As a **system integrator**, we select the finest robotic arms and transform them into certified, ready-to-use, bespoke solutions that comply with international standards.

Strategic Partnerships and Guaranteed Quality

All our collaborative palletising systems are built upon the **best robotic arms available on the market**.

We work closely with the official manufacturers of the cobot arms, synergically integrating cutting-edge technologies.

HuEvo is OEM Certified for the leading international brands, ensuring solutions that are reliable, flexible, and fully customisable according to the customer's specific needs.

Technical Specification

Details

Arm Model	OMRON TM25S
Arm Payload	25 Kg
Arm Extension	1900 mm
Max Pallet Height	2200 mm
Machine Interface	Siemens Simatic IPC
PLC on Board	Omron
Field Bus	Ethernet IP, Modbus TCP, OPC UA
Gripper	Vacuum Gripper
Safety	Safety Scanner Sick
Power Supply	110Vac-60Hz/240Vac-50Hz
Pallet Available	EU/US/Custom

Hu.Evo. stands for Human Evolution.

Choosing **HuEvo** grants you access to advanced robotic solutions integrated with AI, which are ready-to-use and certified for every global market.

We offer modular, flexible, and **customisable** systems that guarantee **reliability**, speed of deployment, and a tangible competitive advantage.

Every detail is meticulously crafted: from comprehensive technical documentation to continuous support, both before and after delivery.

Choosing **HuEvo** means opting for the experience of an industrial group that has made innovation its **mission**.
